Our Philosophy

Puckihuddle Preschool is dedicated to providing your child with the best first experience at school. Our safe and nurturing atmosphere is filled with interesting and developmentally appropriate experiences which foster your child's physical, social, emotional and intellectual development. Through a careful balance of teacher directed and child selected activities, your child will have the opportunity to play, explore, discover, inquire and learn. Our engaging, exciting child-centered curriculum encourages each child to grow and develop at his/her own pace. While in our care, we will offer your child consistency, security and safety in a warm, nurturing environment allowing them the opportunity to acquire a true love of learning.

A Little Bit About Us

Puckihuddle Preschool was established in 1981. Our program provides children and their families a high quality early childhood experience. Our classes are led by dedicated professionals who, through guidance, patience and understanding, will motivate, encourage and inspire each child's desire to learn.

Lunch Bunch

Lunch Bunch includes 60-minutes of supervised lunch (parent-provided) and play. Lunch Bunch will be held every Wednesday and Friday starting in the month of October for the MWF half-day program. A free Lunch Bunch will be offered for all MWF students to try out the experience beginning the last Wednesday in September. We will also offer Lunch Bunch twice per month for the half-day TUTH program (specific dates TBD).

The cost for Lunch Bunch will be \$10 per day. Parents will have the flexibility to sign up for one day at a time or the whole year. Advanced registration will be required so staffing and activities can be planned accordingly.

The Enrollment Process

If you would like to visit our school, request additional information or speak to a director, please call us at (508) 476-2939. We are always happy to meet and speak with parents and their children. We offer tours every Thursday at 9:30 a.m. or by appointment. Please call to sign up for a tour. Applications for admission are accepted on an on-going basis. If you are interested in enrolling your child, a \$60 non-refundable registration fee is due when you enroll to secure your child's spot.

Our Curriculum & Learning Activities

We believe children learn best through play. Our curriculum is child centered with developmentally appropriate materials which encourage creativity, problem solving skills, and a love of learning. The children learn teamwork and respect for the needs and feelings of others. Limits are set in ways that develop self-control and preserve self-esteem. Each session is carefully planned around a unit of study with the age and skills of the group in mind.

We believe children learn best by doing. Therefore, our structured, yet flexible daily schedule is filled with hands-on learning activities. There is a delicate balance between child-initiated and teacher guided activities as well as time for individual, small group and large group instruction. We incorporate art, blocks, books, cooking, dramatic play, small and large motor, games, language and literacy, math explorations, music & movement, nutrition, outdoor play, puppets, puzzles, science discoveries, and sensory play into our day. Each of these learning centers provides a place for children to explore, imagine and grow. Reading, writing, math, science, and social studies skills are a major focus of our program and are incorporated into our thematic curriculum during our meeting times, carefully planned lessons and learning activities.

We believe in each child's individuality. Each child is unique and we want to nurture the individual spirit. We are prepared to meet the individual needs of your child and help achieve their highest potential by fostering curiosity, extending their thinking and making learning FUN!

Enrichment Programs

Puckihuddle Preschool is pleased to partner with *Apple Tree Arts* to provide quality music instruction to our students each month. In addition, we are fortunate to have one of our very own preschool staff members to provide additional enrichment to our existing science program. In support of the curiosity of young learners, we offer an after-school STEM program for our MWF students through *STEM Beginnings*.

About Our Parents

As we work to establish a unique experience for your child, we strongly encourage your parental involvement. We consider parents our partners in education. Parents are invited to participate in the program through volunteering in the classroom, helping out with our Puckihuddle Parents Group and by attending fun family events. We also welcome parents or relatives to share their professions, hobbies, special interests, holidays or traditions with our students.

Communication

We highly value the relationship between home and school, and strive to provide relevant information in a variety of formats. In order to keep you informed about your child's preschool experience, you will receive weekly classroom announcements, monthly newsletters and frequent email reminders. You will also participate in parent/teacher conferences where your child's developmental progress will be discussed. At any time, you can communicate with your child's teachers or directors via email, phone, note or meeting.
